I. Information

a. Member list
The member list of EMTC representatives with names, actual addresses, phones, faxes and e-mail has recently been updated (by Monika) but still has to be worked on. Please remember every time one of us changes place with another delegate or change our address, phone etc. to give a message to Monika and Gianluigi immediately. Even if your e-mail does not work, please give a message about this on e.g. the fax. There has been a lot of trouble how to get in contact with some of you. This reminder is for your own convenience; otherwise you might not get important information in time. Within a few days Monika is going to circulate the present list, please give feedback to her in order to make the member list as correct as possible.

b. Working meeting in Naples
Gianluigi, Jos and Gro from EMTC met in Naples in May this year and worked on the next European Music Therapy Conference in Naples. The theme is "Music Therapy in Europe". The Congress Chair is Gianluigi di Franco, the nominated Scientific Committee Coordinators of the three Sections are Prof. Tony Wigram for Clinical Practice, Prof. David Aldridge for Research and Prof. Even Ruud for Musicology.
The date will be April 20 -25 2001. This proposal was submitted to the delegates and all of them agreed. Within the scientific committee it is important to find members representing the whole of Europe, following the new EMTC Format is to choose representers from North, Center and South.

c. Newsletter
This Newsletter is presented at this conference and also includes information about the Europe and EMTC V. Congress in Naples 2001.

d. Working Meeting in Washington
Tony, Even, Gianluigi and Gro met for a Working Meeting at the world conference at Omni Shoreham. Information about the Congress and CALL FOR PAPERS will be distributed closely after Christmas. Deadline for handing papers will be March 25, 2OOO. The distribution of information about the Congress in Naples is to be done by members in the EMTC using the mailing list from Leuven.

e. Questionnaire of music therapy professional organisations represented
Monika has worked out a Questionnaire of music therapy professional organisations represented and not represented, and number of members. Most EMTC members answered. We ask for facilitating the sending of questionnaire to Monika (for the members didn't make it yet).

f. Meeting in Brussels
Jos, Monika and Tony had meetings in Brussels in order to look for possibilities for the EMTC to be a recognised body within the EU. A more detailed report about that will be given at the Pre-Conference in Israel.

g. Ethical Code

Monika and John Strange (UK)worked on a draft concerning Ethical Code for music therapists. This sketch is to be discussed within the EMTC countries and hopefully at the Israel meeting.

h. Supervision Group
It was established a group working on guidelines for supervision in music therapy. Helen Odell-Miller (UK) is in charge after Inge Nygaard Pedersen Denmark.

2. EMTC at Internet

Gro proposed to get a web page for EMTC as fast as possible. The World Federation of Music Therapy (WFMT} is also working with this case. Gianluigi is having a meeting at the WFMT with EUPHOMCA International about information at the Net. There is also another idea to work with David Aldridge in Germany. Helle agreed to be the co-ordinator of such a page inside of the EMTC. If you have any ideas for this website please submit to Helle before the 31 of January 2000.
Gianluigi and Helle are taking responsibility and report back to EMTC.

3. Pre-conference in Israel

Chava has done a lot of nice work to host us in Israel. Chava stresses to answer her immediately when she asks for that. There is a lot of arrangements for people in Israel in April/May due to the Millennium. The day before the pre conference there will be a study day at the David Yellin College where Gianluigi, Tony, Jos and Gro will contribute, under the heading “Clinical Improvisation in the Light of Different Approaches".
